

PURE ORTHODONTICS

Pure Orthodontics: 3-Year In-Office Orthodontic Training Program for General Dentists

Are you a general dentist looking to expand your skills and grow your practice? Pure Orthodontics is excited to offer a 3-Year Comprehensive Orthodontic Training Program, designed specifically for general dentists eager to learn the art and science of orthodontics.

Why Choose Our Program?

Our program provides a unique opportunity for general dentists to gain in-depth knowledge and practical experience in orthodontics right here in our clinic. We combine the theoretical foundations of orthodontics with hands-on training through real patient cases, giving you the opportunity to apply what you learn in a supportive, professional environment.

Program Highlights:

- **3-Year Duration:** A structured timeline that ensures a thorough understanding of orthodontics, from theory to practical application.
- **In-Office Training:** Learn in an actual orthodontic practice, gaining experience in diagnosing and treating patients under the supervision of experienced orthodontists.
- **Theory and Practice Combined:** Benefit from a blend of classroom-style learning and direct, hands-on patient care.
- **Supervised Patient Cases:** Work directly with patients, managing cases from start to finish, while being guided by our team of orthodontic experts.
- **Skill Expansion:** Broaden your services and expertise, enabling you to offer orthodontic treatments.

What You'll Learn:

- Comprehensive orthodontic diagnosis and treatment planning
- Clear aligner therapy and traditional braces
- Hands-on experience with cutting-edge orthodontic technologies
- Case management and patient care from start to finish
